**It Was Ordered.**  
In the biography of Prince Bismarck it is said that when he was minister at St. Petersburg he was walking one morning in the summer garden and met the czar, who invited him to join him. Presently Bismarck noticed a sentry stationed in the middle of a large grass plot and asked the aid-de-camp, who in turn inquired of the sentry.  
"It is ordered," was his reply.  
Every official gave the same answer. "It is ordered," but nobody knew by whom. A sentry had always stood guard in the middle of that innocent grass plot. The archives were searched, but in vain. At last an aged official was found, who had been told by his father that the Empress Catherine had once seen a snowdrop ready to bloom in the spot, and had ordered a sentry to stand guard and allow no one to pluck it. For more than a century the watch had been maintained because "it was ordered," and no one had ever thought of disobeying or of questioning the reason of the order.

**Red Hair the Best Wear.**  
Why are redheaded people less subject to baldness than those with fair or brown hair? An English physician has answered this conundrum.  
The hair of the redheaded is relatively thick, one red hair being as thick as five blond or three brown hairs. With 30,000 red hairs the scalp is well thatched. With the same number of blond hairs one is almost bald. It takes 160,000 blond and 105,000 brown hairs to cover adequately an ordinary head.

**Moral Effect.**  
Mrs. Greene—Do you always give your little boy castor oil for a cold?  
Mrs. Gray—Yes, I give it for its moral effect exclusively.  
Mrs. Greene—For its moral effect?  
Mrs. Gray—Yes, it will have an influence upon him not to catch another cold.—Boston Transcript.

**Profit From a Whale.**  
The profit from a single whale that is captured is very large. One about 50 feet long weighs 140,000 pounds and will give 60,000 pounds of blubber, from which 48,000 pounds of train oil can be made and 3,000 pounds of whale-bone.

The chief ingredients in the composition of those qualities that gain esteem and praise are good nature, truth, good sense and good breeding.

The skins of animals were the earliest forms of money. Sheep and oxen among the old Romans took the place of money.

THOUGHTS.  
"Invincible determination will do anything."—Buxton.  
"He can who thinks he can."—Dryden. Do you think you can?  
"If he can, why can't I?"—Strapp.  
"There's a divinity within That makes men great if they but will it. God works with all who dare to win."  
Do not idly wait for something to turn up, turn up something.  
"Our to-days and yesterday's are the blocks with which we build."—Long-fellow.  
Do not wait until the way is made open but clear it and make the journey.

**LOCALS.**  
Some of the Sub-Junior boys have a gigantic project in mind, that of buying the yacht Columbia and placing it on wheels, then touring the country selling fish. You know the species of fish they would sell—"suckers."

We hope that the members of the High School will bear in mind Halloween, and make previous preparations for having their lessons the next day.

Maud Hoon was in Falls Creek Saturday.

Mollie McDonald visited at her home the latter part of the week.

Miss Amy Reno has been added to the list of the High School, as a member of the Senior Class.

The Seniors are all busy subscribing tickets for the lecture course.

Harry Herpel was in "Oklahoma" and "Hassenbury" last Saturday.

When one of the Seniors was asked what made her so sad, she replied: "We had a funeral this morning." On inquiry it was learned that their dog had died on Saturday and that she had been keeping watch over it until the funeral Monday.

Professors Bower and Dickey were visitors at the home of Miss Getat, at Ringgold, Sunday last.

Science enumerates 588 specimens of organic forms in the air we breathe. Minnie Hayes, '01, was heard to remark: Just think of it; every time you draw a breath a whole zoological garden slips down your windpipe.—Big Run High School Vidette.

**ATTRACTIONS.**  
The law of gravity does not fail to make its appearance, even in the High School.

The Literary Society expects to put a program on next Friday on condition that the artists are prepared.

The other attractions may be found all over the school room and especially in the Senior Class.

**Attention!**  
Ministers of the gospel, Sabbath school superintendents, Sabbath school teachers, leaders of young people's organizations, and all interested in reform work. Your attention is hereby called to the fact that the fourth Sabbath of November is universal Temperance Day. The day is named by the London Sunday School Union. The plan is favorably received and by action of the General Assembly of the Presbyterian church (1896), the General Assembly of the United Presbyterian church (1896), the National Triennial Council of Congregational churches (1896), the General Conference of the M. E. church (1896), the General Conference of the Protestant Methodist church (1896), the National Convention of the Christian church (1896), and the executive committee of International Sunday School Association (1896), it is recommended that this day be observed.

The drink curse is world wide; every nation has some phase of it. It should be taught everywhere that drunkenness is a crime against the nation and a sin against God. Ministers of the gospel, will not each one of you in Jefferson county preach on this important subject on Nov. 26th? Sunday school superintendents and leaders of young people's work, will you not please arrange for a special temperance program for your meetings for that day? Make preparations at once. "Red, White and Blue" pledge cards, family temperance pledges, leaflets and other helps along this line, can be obtained from Mrs. Stella B. Irvine, St. Paul, Minn., at very reasonable rates.

I shall consider it a great favor of each one doing as herein requested if you will notify me of the fact by postal card. (MRS.) EMMA C. DICKEY, S. S. Supt. of Jefferson County W. C. T. U., Baxter Pa.
